

Migration Services Assessment

Free
of charge*

Complimentary workshop to determine your migration needs

If you are challenged with migrating enterprise content, fme's experience, knowledge and proprietary migration-center software will make a positive difference to your project success. Take advantage of our complimentary three-day assessment workshop and let us demonstrate our approach and capabilities focused on your specific migration needs and data.

Our Migration Services Assessment allows companies to gain real insight into the complexities and costs of their planned migration activities. This on-site workshop for qualified opportunities allows your team the benefit of having a professional migration assessment. In just two or three days, our experts will discuss your migration needs and present you with a practical timeline and budget range for your project. Our assessment includes discussion on your source and target repositories, the migration approach, and data quality and enrichment strategies.

All our workshop engagements incorporate the concept of using our migration-center software, which supports all major platforms including Veeva Vault, OpenText D2, SharePoint and many others.

Benefits

- Minimize the risk of initiating a project without a good understanding of the potential benefits and risks
- Educate your project team on the necessary considerations and activities in order to optimize the project deliverables

- Learn about the process and business rules that can be applied to enrich your document metadata
- Identify other application areas where our migration-center software and migration services expertise can benefit your content management activities
- Provide your business community with a timeline and budgetary cost for the migration project

Our offer

- A two day workshop on-site (length depending on your project requirements) with one of our product and migration experts with support from our extended team
- Full documentation of workshop materials including timeline, budgeting data and risk assessment
- Free Evaluation Copy of migration-center for two weeks
- Product support for the whole test period

* Your investment

- Two days of your migration team's work time, depending on your requirements
- Travel & expense costs
